

DECLARATION
(CONTINUATION-IN-PART APPLICATION)

As the below named inventor, I hereby declare that:

My residence, post office address and citizenship is as stated below next to my name:

I believe I am the original, first and sole inventor of the subject matter which is claimed and for which a patent is sought on the invention entitled "PROCESS FOR HETEROTROPHIC PRODUCTION OF MICROBIAL PRODUCTS WITH HIGH CONCENTRATIONS OF OMEGA-3 HIGHLY UNSATURATED FATTY ACIDS", the specification of which is attached hereto and filed concurrently herewith and identified as Attorney File No. 2391-1, and which, in part, discloses and claims subject matter disclosed in the earlier filed and pending United States Patent Applications Serial No. 07/439,093, filed November 17, 1989 and Serial No. 07/241,410, filed September 7, 1988.

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims.

I acknowledge the duty to disclose information which is material to the examination of this application in accordance with Title 37, Code of Federal Regulations, §1.56(a), material information being information where there is a substantial likelihood that a reasonable Examiner would consider it important in deciding whether to allow the application to issue as a patent, and as to subject matter of this application which is common to said earlier applications, I do not know and do not believe: that the same was ever known or used in the United States of America before my invention thereof, or patented or described in any printed publication in any country before my invention thereof or more than one year prior to this application; or that the same was in public use or on sale in the United States of America more than one year prior to the effective date of this application; or that the common subject matter has been patented or made the subject of an inventor's certificate issued before the date of this application in any country foreign to the United States of America on any applications filed by us or our legal representatives or assigns more than one year prior to this application; or that an application for patent or inventor's certificate on this invention has been filed in any country foreign to the United States of America prior to this application by me or my legal representatives or assigns except as follows: None.

I hereby claim the benefit under title 35, United States Code, §120 of prior pending United States Patent Applications Serial No. 07/439,093, filed November 17, 1989 and Serial No. 07/241,410, filed September 7, 1988, and insofar as the subject matter disclosed and claimed in this application is not disclosed in said prior application in the meaning provided by the first paragraph of Title 35, United States Code, §112, I acknowledge the duty to disclose material information in accordance with Title 37, Code of Federal Regulations §1.56(a) which occurred between the filing date of the prior applications and the filing date of this continuation-in-part application, and further declare that I do not know and do not believe the same was ever known or used in the United States of America before our invention thereof or patented or described in any printed publication in any country before our invention thereof or more than one year prior to this application, that the same was in public use or on sale in the United States of America more than one year prior to this application, that the invention has been patented or made the subject of an inventor's certificate issued before the date of this application in any country foreign to the United States of America on any applications filed by me or my legal representatives or assigns more than one year prior to this application or that an application for patent or inventor's certificate on this invention has been filed in any country foreign to the United States of America prior to this application by us or our legal representatives or assigns except as follows: None.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like as made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

WHEREFORE, I pray that Letters Patent be granted to me for the invention described and claimed in the foregoing application, and I hereby subscribe my name to the foregoing specification and claims and declaration.
